EDUCATION

Jawaharlal Nehru Technological University **Nov 2022 – May 2026**
B.Tech Computer Science And Engineering ***CGPA - 8.01***

Nightingale School **2020 – 2021**
Class XII - ***Percentage - 90.4%***

PROJECTS

PrajaGov - Civic Issue Management Platform | FastAPI, React, PostgreSQL, Gemini AI **Jan 2026**

- Developed a full-stack civic grievance management platform using React, FastAPI, PostgreSQL, and REST APIs.
- Integrated Google Gemini 2.5 Flash for AI-powered complaint classification, department routing, and priority prediction.
- Implemented role-based workflows, automated issue assignment, and email notifications for real-time issue tracking.

SmartHarvest | Flask, Python, XGBoost, OpenWeatherMap API **May 2025**

- Built a Flask-based ML platform for crop recommendation, yield prediction, and real-time weather forecasting using XGBoost.
- Improved prediction accuracy by 18% through data cleaning and feature engineering on soil and climate datasets.
- Trained XGBoost models and integrated live weather APIs for data-driven agricultural planning.

EngiMentor | JavaScript, Google Drive API, Vercel **May 2024**

- Built a centralized academic portal providing structured access to subject-wise lectures, notes, and previous year papers.
- Integrated Google Drive API for dynamic content delivery and deployed on Vercel with seamless navigation.
- Implemented semantic search using TF-IDF and cosine similarity for efficient document retrieval across the portal.

Veloura Skin | Shopify, UI/UX Design **March 2026**

- Designed and built a fully functional skincare eCommerce store on Shopify with a focus on UI/UX and product presentation.
- Structured homepage with hero banner, product listings, and feature highlights for an enhanced user experience.
- Managed product catalog including pricing, inventory, and SEO-optimized product descriptions.

CERTIFICATIONS

HackerRank
Problem Solving (Basic) • Java (Basic)
